NARRATIVE

This survey was performed at the request of James Evans for the purpose of locating the boundary lines of the parcels of land shown on this plat. This section was originally surveyed by the General Land Office using the "3-mile" method during which the sixteenth corners were set. Accordingly a search was made for these corners with the results noted on the plat. The right-of-way line of the highway was determined from monuments found on the right-of-way lines and are indicated on the plat. Existing fences in the area were tied in and are shown with their relationships to the property lines.

SURVEYOR'S CERTIFICATE

This is to certify that I have surveyed the parcel of land shown on this plat, and that the monuments indicated were found or set during said survey, and that this plat accurately represents said survey to the best of my knowledge.

D. Ryan Allred, Professional Land Surveyor,
Certificate No. 376084, (Utah)
